REGULATIONS FOR THE FEDERAL AND STATE LIFELINE PROGRAMS

1. Regulations specified elsewhere in the Company's tariffs apply to Lifeline Service.
2. Lifeline Service is only available with residence services, excluding foreign exchange service. Lifeline Service is limited to one line per household at the customer's primary residence.
3. A miscellaneous service charge does not apply when Lifeline Service is added or discontinued to existing service when that is the only work being done.
4. The Company will provide, at the qualifying customer's option, toll blocking service at no charge. Toll blocking is defined as a central office service that restricts access to the network. Toll blocking is provided where facilities permit and will not allow 1+, 0+, 0-, 101XXXX, 900, or interzone calls to be completed. Toll blocking does not restrict local calls, calls to intraNPA directory assistance, telephone repair service, 911, or calls to 800 or 950 numbers.
5. The Company will not require a service deposit to initiate Lifeline Service if the qualifying customer voluntarily elects toll blocking service.
6. The Company will provide, at the qualifying customer's option, long distance (toll) service at the rate of \$0.12 per minute. In addition to this basic long distance calling rate, the Company also offers the following long distance call plans: 200 minutes of long distance calling at the rate of \$19.00 per month, 400 minutes of long distance calling at the rate of \$34.00 per month, or 600 minutes of long distance calling at the rate of \$45.00 per month.
7. Participants in Lifeline shall not be disconnected from local service for non-payment of toll charges. In addition, the Company will not deny reestablishment of local service to customers who are eligible for Lifeline and have previously been disconnected for non-payment of toll charges. However, toll blocking will be imposed if the customer previously has incurred and failed to pay toll charges when due or has previously had local service disconnected for nonpayment of local service charges.
8. The Lifeline plan will apply after receipt and processing of a completed company or community/government-provided application, including documentation indicating that the household income meets the eligibility standards established above for either the Federal or State Lifeline Program.
9. Customers of Lifeline Service must notify the Company of any changes which would affect qualification. Re-certification of eligibility will take place on an ongoing basis. When the customer is no longer eligible for Lifeline Service, the Lifeline discount would be discontinued and regular tariff rates and charges would apply.
10. The Company's voice Lifeline plan includes unlimited local minutes-of-use within the toll-free calling area. Residential customers are allowed 2,000 minutes of calling into their expanded local calling areas (adjacent exchanges) free of charge each month. Each minute after that is charged at \$0.05 per minute.
11. Where the facilities of the Company permit, the minimum service standards for fixed Broadband Internet Access Service includes 10 Mbps download speed/1 Mbps upload speed and an unlimited data usage allowance.
